

Trip to Ice Hotel & Québec City Carnival

Fifteen brothers, sisters, and other family members from council 13881 went on a car trip to the ice hotel and the Québec City carnival on Saturday, February 5, 2011. The tenth edition of the ice hotel is located on the vast grounds of the former Quebec Zoo to perfectly combine the icy adventure to the capital's urban life. The group then visited the world's largest winter carnival which has been a highlight on the Quebec event calendar since 1894. They saw the International Snow Sculpture Event, went snow rafting, and participated in other activities.

Special KofC Insurance Policies

The "Single Premium Whole Life" Policy will expand your Estate. It's become a popular idea. As a refresher, here's how it works. If you have a sum of money that's available to contribute, \$15,000, \$20,000, \$25,000 or even \$50,000, any amount, really. You make one contribution and never pay again. The value of the insurance you'll be purchasing could be 50%, 100% or even 150% higher, depending on your age and medical condition and it will be tax free! Plus with the dividends in the policy, the value of your insurance will steadily increase. You're required to pass the medical scrutiny for approval, but it's a fantastic way of expanding your estate. Don't be scared off by common medical conditions like diabetes, for example. While you may be "rated", there's still a good possibility of approval.

Depending upon your age, without a doubt, the best Knights of Columbus plan is a "20 Pay Life" policy. This is a Whole Life policy, with guaranteed cash values and dividends. And as the name suggests, you pay for twenty years and the policy is paid up. It's particularly good for young members who are joining the Knights of Columbus in their 20's and 30's. It's ideal for children of members as well. The premiums are manageable and the growth in coverage over thirty or forty years is unbelievable. Recently a 24 year old purchased a "20 Pay Life" policy with a Face Value of \$40,000. He'll pay a total of \$8,000 over twenty years. At age 65, his Cash and Dividends will be worth over \$35,000 should he choose to surrender the policy and that \$40,000 Face Amount will have increased to over \$65,000. He's only paying \$8,000 in premiums and he's finished paying at the age of 44. That's a pretty good return on your dollar.
